Thank you. We can add that that data will be posted on as available, and Denka has agreed to continue air monitoring through 2021.

Subject: RE: FOR REVIEW: Denka/LaPlace summary report

My only comment was on the very last part:

The Continuous Air Monitoring Program is designed to measure short-term concentrations of chloroprene and provide important additional information to help identify potential opportunities to further reduce chloroprene emissions. The Continuous Air Monitoring Program, barring unforeseen circumstances, will operate until December 2020.

Ex. 5 Deliberative Process (DP)

OAR IO (Kelley Raymond) reviewed and approved (she had no comments).

Thanks!

Isabel

Thank you!

Kristen, Isabel...do you all have any comments? I have not seen any response from either of you.

I need all comments by noon.

Thank you!!!

I think this looks fine. It is a rather technical document as you would expect, but I believe we have plenty of "cover" information on shared values, our role, history in the community etc on the web where this will be posted. If I am wrong, we might consider pulling from the recent responses to USA Today for that content that is more intended for a public audience.

I do have one comment that I think is something we should consider if anyone has a good idea on how to handle it. That is for the graphs on network consistency, I suspect there will be people who think that they show increasing levels over time. I don't have great thoughts on how to fix it. It's fine for a technical audience, but if we think a broader public is going to be consuming this, many will not understand those graphs.

Thank you. The attached includes OAQPS edits, so it may be easiest to edit this doc.

Thank you!

I have not been able to look at this yet. The days are packed around here. I won't have time to focus on it until tomorrow? Is that too late? I don't want to hold things up, but if I am reviewing I want to actually commit to reading the whole thing...

Subject: FOR REVIEW: Denka/LaPlace summary report

Hello Nancy, Isabel, Alison, and Mike,

We are seeking HQ (OAR, OPA) review and approval of the attached summary report on our community air monitoring system in La Place, Louisiana around the Denka facility.

I wasn't exactly sure who all should be on this, so hopefully I'm reaching the right people! We are looking to push this out on Thursday.

Please let us know if you have any questions.

Thank you!!!

Corry Schiermeyer
